Descendants of Manistee Lumberman Louis Sands own summer homes in this area that extends to the shoreline of Portage Lake. The caretaker's house at 2370 Crescent Beach Road has a small greenhouse at one side of it. The dwelling at 2234 Crescent Beach Road was built for R. W. Smith, Sands' son-in-law, in 1909. The cellar behind this house was used to cool milk and cream from cows the

Sands descendants kept in a barn on the property. A gas well provided heat and light in the cottages during the early years.
